Makara Sankranti marks the day of Sun's migration towards Northern Hemisphere (**Uttarayana**) to the Makara Rashi. It is celebrated widely throughout India, and called as **Thai Pongal** in Tamil Nadu, **Sankranti** in Andrapradesh, Telangana and many other states. It is celebrated over four days by cleaning the house, offering prayers to **Soorya Baghavan** and paying respect to farm animals and all tools of the trades.
